FOR IMMEDIATE RELEASE

BSK Associates – Bakersfield moves office Bigger Facility Opens New Doors

BAKERSFIELD, CALIFORNIA – MAY 11, 2010

BSK Associates has announced the relocation of our Bakersfield Office to the new location in downtown Bakersfield at 700 22nd Street. Doors officially open on Monday, May 17, 2010.

“We are very excited about this new location due to its proximity to the downtown business hub and we are closer to many key clients. The building will also allow for growth and expansion,” said Amer Hussain, P.E., LEED AP, and Vice President of Engineering.

According to On Man Lau, G.E. and Branch Manager, “BSK has had an office in Bakersfield since 1972. The move is in response to an increasing project volume and the desire to better serve our clients.”

The 6,100 square foot facility includes engineering and administrative offices, sample receiving and a full-service construction materials testing laboratory. BSK will continue to maintain certifications and accreditations with Caltrans, Concrete Reference Laboratory (CCRL), AASHTO Materials Reference Laboratory (AMRL) and the Division of State Architect Laboratory Evaluation and Acceptance Program (LEA).

About BSK:

BSK Associates provides analytical testing, construction observation, ecological services, engineering geology, environmental engineering, food safety services, materials testing, geotechnical engineering, and water resources. Established in 1966, BSK is employee-owned, and has offices and laboratories throughout California.
