BSK is LEED® Green

Amer Hussain,
P.E., LEED AP

FRESNO, CALIFORNIA – JULY 20, 2009

BSK Associates (BSK) announced that Amer Hussain, P.E., Vice President of Engineering has passed the U.S. Green Building Council examinations and attained Leadership in Energy and Environmental Design (LEED®) credentials.

The U.S. Green Building Council developed the LEED® Green Building Rating System as a national standard for developing high-performance, sustainable buildings. LEED® professional accreditation distinguishes individuals with detailed knowledge of project certification requirements and processes and a command of integrated design principles. LEED® accreditation is awarded to building industry professionals who successfully demonstrate these proficiencies by passing a comprehensive exam.

“We are proud to be able to offer our clients a thorough understanding of green building practices and principles, and the ability to help them with certification through the LEED® Rating System. We have a commitment to serve our clients with exceptional service, and BSK wants to be ready to assist in attaining their building sustainability goals,” says Hussain.

About BSK:

Since 1966, BSK has been involved with earth sciences, engineering design and testing for projects in both natural and built environments. BSK is an employee-owned firm, and has offices and laboratories throughout California. BSK offers analytical testing, construction observation, ecological services, engineering geology, environmental engineering, geotechnical engineering, materials testing, and water resources management. Visit www.bskassociates.com for more information.
