

Yeazell Becomes Registered Professional Engineer

SACRAMENTO, CALIFORNIA – NOVEMBER 19, 2010

BSK Associates (BSK) is pleased to announce that Jeffrey G. Yeazell has earned his Civil Engineer license from the State of California, Board for Professional Engineers and Land Surveyors. In 1992, Mr. Yeazell received his Bachelor of Science in Environmental Resources Engineering from Humboldt State University, Arcata, CA. Mr. Yeazell, a Project Engineer at BSK's Sacramento office since 1997 is responsible for environmental site assessments and remediation projects.

Jeffrey Yeazell, PE

Mr. Yeazell has expertise in statistical analysis and over 16 years of experience in environmental assessment, permitting compliance, and remediation system design/operation and maintenance. Kurt Balasek, PG, BSK's Sacramento Branch Manager stated, "We are very proud of Jeff and this achievement. He is a true professional and his capabilities strengthen our environmental capabilities in the Sacramento area."

BSK is an employee-owned firm, and has offices and laboratories throughout California. Since 1966, BSK has been involved with earth sciences, engineering design and testing for projects in both natural and built environments. BSK offers analytical testing, construction observation, ecological services, engineering geology, environmental engineering, geotechnical engineering, materials testing, and water resources management.
